Resolution #338-12192023

A resolution authorizing the purchase of a type one fire engine to replace Apparatus 1014, currently in-service as Engine 94.

WHEREAS, Apparatus 1014 has passed the recommended age for fire apparatus in front line service and is approaching its end of useful life; and

WHEREAS, the 5-year maintenance and repair expense for this apparatus is over 47% of the total expense for maintaining the district's fire engines; and

WHEREAS, the district's capital projects schedule and adopted 2024 comprehensive district budget have programmed replacement of this apparatus in 2024; and

WHEREAS, purchase of this apparatus using Sourcewell group purchase contract #113021-RSD saves the district 15% over the Rosenbauer's suggested retail price; and

WHEREAS, Rosenbauer will increase the price of fire engines 6% on January 1, 2024; and

WHEREAS, Rosenbauer is unable to provide a firm price based on the district's current type one engine specifications, and

WHEREAS, execution of a contract based on the as-built specifications for Apparatus 1020, currently in-service as Engine 91 and implementation of change orders within 60 days of the execution of this contract to ensure that the new type one engine meets the current needs of the district will save the district at least 6% of the total cost of this capital project.

NOW, THEREFORE, BE IT RESOLVED:

That the district will execute the attached contract for purchase of a type one fire engine with pricing based on Sourcewell Contract #113021-RSD and the as-built specifications for Apparatus 1020, currently in-service as Engine 91 and will make change orders within 60 days of the execution of this contract to ensure that the new type one engine meets the current needs of the district.

ADOPTED at a Regular Meeting of the Board of Commissioners for East County Fire and Rescue December 19, 2023, with the following Commissioners being present and voting:
